SUMMARY

Third-year undergraduate student pursuing a BSc (Hons) in Computer Science (Software Development). Skilled in C++, Java, Flutter, and Laravel, with experience in building web and mobile applications, backend systems, and API integrations. Familiar with Agile practices including Scrum and sprint planning, with a strong interest in software quality and performance. Eager to contribute as a Software Engineering Intern and grow through hands-on experience in backend and full-stack development.

PROJECTS

Techtify E-Commerce Website – Laravel, PHP, MySQL, Tailwind, REST API

- Built and tested a full-stack e-commerce platform with admin dashboard, product/order management, and API integration.
- Conducted regression and functional testing to ensure platform reliability.

Techtify Mobile App – Flutter, Dart, REST API

- Developed and tested a mobile version of Techtify with product browsing, cart functionality, and seamless backend integration.
- Designed test cases for app flows and API connectivity.

Fledge Job Platform – Laravel, Tailwind CSS, MySQL, JSON Auth

- Contributed to backend and QA for a student-focused job portal with student registration, CV uploads, job applications, and employer dashboards.
- Performed manual testing with developers, validating core features and documenting bugs.

EDUCATION

BSc (Hons) Computer Science (Software Development) – Staffordshire University (UK)　　　　　　　　　　**Oct 2023 - In Progress**
APIIT Sri Lanka · Expected Graduation: 2026

Lyceum International School Wattala – Graduated: 2023　　　　　　　　　　**Graduated: 2023**
